

You are an enthusiastic professional with excellent soft skills looking to prove these whilst working for one of the leading providers for Direct Carrier Billing? Take a leap and experience how a mobile device turns into a progressive payment instrument for online and physical goods, such as e-publishing, video on demand, online gaming, digital music or ticketing. Direct Carrier Billing meanwhile ranks as the top number three payment option at Facebook and is a vital and irreplaceable part of today's mobile payment landscape.

DIMOCO Carrier Billing is a regulated payment institute, holds a payment services act license granted by the Austrian Financial Market Authority and enables over 1.5 billion people to purchase goods and services from content providers through their mobile devices.

Our international team, shaped by 20+ nationalities, offers space to add your personal note, combined with direct responsibility and ownership of your projects. Flexible working hours support your work live balance. You are just the person we are looking for if you want to become a vital part of our young, motivated and entrepreneurial team in a modern environment!

Due to the growing demands of our services we are now recruiting for a

Requirements Engineer (w/m)

- IT Services -

Your vital role:

In this challenging role, you will be responsible for business and system requirements collection for business-critical applications. We are looking for a communicative, thorough person who enjoys actively shaping the company's solutions in communication with all departments of the company. The ideal candidate should have a deep technical understanding and be able to write down requirements but also keep the overview and be able to identify mismatches.

In this position you will:

- Develop, evaluate and specify the requirements
- Analyze workflows and use cases for our software projects
- Promote knowledge exchange between product management, business departments and development
- Create solution proposals with end-to-end responsibility
- Support innovation, share ideas
- Work in an international and interdisciplinary team
- Design and maintain the roadmap for the further development of the application landscape
- Support development of professional software in an agile team.

Your expertise includes:

- Completion of technical studies and professional background in SW engineering
- 3+ years working experience in Requirements Engineering in software projects
- Process-management understanding and experience
- Experience in collecting and organizing Business Requirement and System Requirements (together with System Architect)
- Strong communicator and passion for understanding and documenting complex thoughts accurately
- Practical experience of agile software development
- Good understanding of Requirement Life Cycle
- Excellent knowledge of English; German knowledge is a plus
- Beneficial: Experience with Atlassian Confluence & Jira
- Drive to learn and improve

You will enjoy:

- International development opportunities in the growing and trend-setting mobile payment industry
- A varied, challenging and international task awaits you
- We support you: You will receive comprehensive training on our products and systems
- An extremely good working atmosphere - team spirit, passion and collegiality characterise our company
- We live agile development
- Educational budget
- Flexible working hours
- Employee events
- An annual gross salary starting with € 65.000,- with the willingness to overpay depending on professional experience and qualification.

Are you the hot shot we are looking for?

We look forward to receiving your online application: <https://dimoco.eu/contact-form-career/>
