You are an enthusiastic professional with excellent soft skills looking to prove these whilst working for one of the leading providers for Direct Carrier Billing? Take a leap and experience how a mobile device turns into a progressive payment instrument for online and physical goods, such as e-publishing, video on demand, online gaming, digital music or ticketing. Direct Carrier Billing meanwhile ranks as the top number three payment option at Facebook and is a vital and irreplaceable part of today's mobile payment landscape.

DIMOCO Carrier Billing is a regulated payment institute, holds a payment services act license granted by the Austrian Financial Market Authority and enables over 1.5 billion people to purchase goods and services from content providers through their mobile devices.

Our international team, shaped by 20+ nationalities, offers space to add your personal note, combined with direct responsibility and ownership of your projects. Flexible working hours support your work live balance. You are just the person we are looking for if you want to become a vital part of our young, motivated and entrepreneurial team in a modern environment!

Due to the growing demands of our services we are now recruiting for a

Application Developer (f/m)

Your mission:

As experienced developer you will be part of designing the mobile future and will play an important role in all aspects of software development.

Do you appreciate short decision paths, a young, dynamic environment and technical challenges? Would you like to develop your skills even further? Then we would like to get to know you!

You will be trusted with:

- Developing our JAVA-based applications in the area of SMS, mobile payment and mobile web and web applications
- Evaluation of new technologies
- Constant development of our Backend-services (DWH, ERP, BI), based on Oracle / JAVA / MicroStrategy / Full stack development
- Creativity and innovation while introducing and implementing our new product landscape (with Microservices, PostgreSQL)
- Be part of our active team; cooperate to establish modern, agile software processes (Scrum, Develop Unit and Integration tests.)
- Understanding client requirements and user stories and how they translate in application features

Desired Skills:

- Several years' experience in JAVA EE (minimum JAVA 8), Hibernate, Spring, SPRING Boot, Hibernate, JDBC, HTML, HTTP, REST und CSS
- Solid knowledge of database programming (ER modelling, SQL); in particular, Oracle or PostgreSQL database knowledge is beneficial (Oracle, PstgreSQL, Mongo DB)
- Experience with Maven and versioning tool required, other build environments/tools (Bamboo, Sonar, etc.) an advantage
- Source Code Management (GIT, SVN)
- Experience with agile process models (Scrum, TDD, etc.) preferable

- Completed education or training in IT and very good English knowledge (spoken and written)
- You work very independently with a clear vision of solutions and results
- Furthermore, you convince through your cooperative, team-oriented approach with openness for new things, high quality standards and true service orientation
- Good understanding of CSS, Java Script is desirable
- Experience with Atlassion Tools (JIRA, Confluence, Bamboo) is a plus

You will enjoy:

- A challenging and international career
- Practical experience in the highly complex, growing and trend-setting mobile payment industry
- Flexible working hours and a pleasant, relaxed working atmosphere with a flat hierarchy
- Performance driven team spirit and self-motivated working environment – passion and creativity are the drivers in our company
- Comprehensive training on our products and systems in special designed onboarding workshops, as well as a DIMOCO Buddy as an entry aid
- At DIMOCO we attach great importance to further training (e.g. Udemy accesses)
- Employee events
- Modern office located on campus 21 (Brunn am Gebirge) with free shuttle bus from and to Vienna

One application – a billion opportunities!
